

October 5

## 2-3 Line Plots

~~2, 11, 2, 7, 8, 8, 12, 12, 11, 5, 2, 16,~~  
~~16, 11, 18, 17, 14, 5, 8, 20, 2, 10~~  
~~25, 26, 17, 14, 5, 8, 20, 2, 10~~

$$\text{mode} = 2$$

Cluster - data that appeared closely grouped together 7-12, 16-20

Gap - no data appears 11-16, 2-5

Outlier - a piece or pieces of data that are quite separated from the rest of the data

Range - the greatest data point subtract the least data point

$$25 - 2 = 23$$
